Finger Phonics

Beautifully illustrated board books introducing the 42 letter sounds

The Finger Phonics books introduce young children to all of the letter sounds, not just the alphabet. The teaching in these books is multisensory.

Each letter sound is introduced with an action and a large cut-out letter, which helps little fingers to feel the correct formation. Fun activities at the end of each book help children to use their new lettersound knowledge and begin to develop their reading and writing skills.
