Jolly Classroom is split into three main steps, covering all 42 letter sounds, alternative spellings and tricky words, as well as activities for reading and handwriting practice.

Each step provides progressive daily sessions, as well as practical advice and tips that the teachers can use in their class.

Step 1 – Introduce the 42 letter sounds

Step 1 focuses on the five key skills of Jolly Phonics to teach reading and writing: Learning the letter sounds, learning letter formation, blending, segmenting, and tricky words.

Step 2 – Build on the initial teaching

Step 2 builds on the teaching in Step 1 following a similar format of daily revision and consolidation, along with extension topics for the week. The main alternative vowel spellings, capital letters and alphabet, new tricky words and guided writing activities are all introduced.

Step 3 – Consolidate the teaching

Step 3 aims to consolidate the learning of Steps 1 and 2 by introducing new alternative letter-sound spelling patterns and tricky words, as well as long and short vowels, and a variety of reading comprehension activities.
